

Dear Parents:

The mission of St. Alban's Episcopal Day School is to develop student's unique gifts and talents in a way which serves others and gives glory and honor to Almighty God. St. Alban's is not only committed to being a place where learning occurs, but more importantly, a place where children are being shaped spiritually and taught how to use their gifts for the good of others.

There is no education better than an education which trains one to think about others before themselves. Creating servant leaders, educating the whole child, body, mind and spirit; that is what we are committed to do. Our commitment to excellence is what makes St. Alban's a great place to be. Come and see!

The Reverend Scott J. Brown

Rector
